

Yan Oi Tong Chan Cheng Yuk Yee Kindergarten

School Year: 2024/25

Grade: K2

Activity Name: Yuen Long Ecological and Historical Tour

Activity Objectives:

1. Understand the lifestyle of ancient people and learn about Hong Kong's ancient history and culture.
2. Visit the aviary tower to learn about the ecological environment where birds live.
3. Experience riding the Light Rail and explore Hong Kong's shortest railway.

Activity Overview and Record:

This activity invited parents and young children to appreciate the ancient architectural features of "Tai Fu Tai Mansion" in San Tin Wai, a living environment and lifestyle that blends Chinese and Western cultures. This visit allowed them to discover Hong Kong's inherent historical sites and ancient historical appearance within a bustling modern city. They took the Light Rail to enjoy the scenery within Yuen Long town before visiting the Aviary Pagoda in Yuen Long Park. Parents and children had the opportunity to closely observe various bird species and gain a personal understanding of their way of life and the environments they inhabit. The feedback from parents for this activity was positive, as they were able to experience Hong Kong's different kinds of beauty together with their young children.
